DRAWING REFERENCES

END A: length origin. EDGE C: marked transverse edge.

SHARED MACHINING STAGE / physical bracket part numbers and quantities are reused.

Each hole/slot includes size and two center-location dimensions.

Native October 26 thread / release specifications are not supplied; geometry is model-derived.

Formed bodies retain their source radii and actual sections.

Sloped bracket stems retain explicit curved-intersection detailing limitations.

Material, finish and manufacturing tolerances require job release data.
