END A: length origin. EDGE C: marked transverse edge.

Each hole/slot includes size and two center-location dimensions.

Formed bodies retain their source radii and actual sections.

Material, finish and manufacturing tolerances require job release data.

REFERENCE ONLY entries have mesh spans; see each sheet limitation.

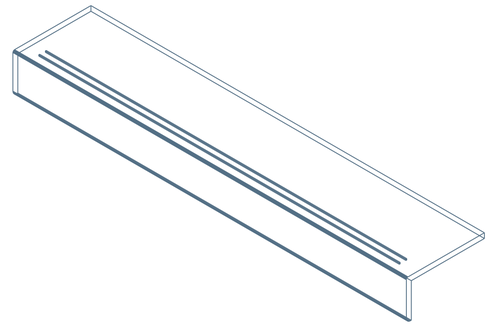
ISOMETRIC



Reference views use STEP tessellation. No inferred hole depth, thread specification, cut angle or manufacturing profile.

Use the source model and native CAD detailing to resolve the limitation above before manufacture.

Dimensions and fabrication details intentionally withheld where the current verified reader/layout is insufficient.
